

Engineering Intern Schneider Electric Bulgaria

Location: PLOVDIV

We, at **Schneider Electric** believe access to energy is a basic human right. We want everyone on our planet to be provided with safe, reliable, efficient, and sustainable energy. We are committed to innovate solutions that address the energy paradox: balancing our planet's carbon footprint and the undisputable right of everyone to quality energy. Our technologies ensure **Life is On** everywhere, for everyone and at every moment. Our ingenious solutions enable lives to be more connected, sustainable, efficient, reliable and safe. Truly global specialist in Energy Management, Automation and Data Centers we, Schneider Electric have a unique local presence through our 140 000 employees worldwide.

Now, we have a job opportunity for an Engineering intern in our Factory team. You will gain broad entry experience in a number of different functions and units:

What will you do:

- Work with manufacturing engineers on design change covering the entire cycle from identifying the need of its update to follow up its execution (prioritize, observe, gather, record, write, seek validation, follow up)
- Assist manufacturing engineers in localization projects and new product launches. Take approved documentation and make sure the electronic copies are placed in the correct folders
- Get involved in production improvements or cost reductions. Assist manufacturing engineers with inventory and other normal manufacturing process as needed
- Assist manufacturing engineers with analysis of product, measurement of the components, investigation of quality issues and support of tracking and realizing of improvements action plans
- Consolidates data and prepares reports as per department needs

Experience and skills we are looking for:

- Bachelor degree – Electrical/Mechanical or Industrial engineering (at least 3rd year in university);
- Capable of working independently on assignments, willing to accept mentor coaching
- Hands on and willing to take initiative
- Previous professional or internship experience related to this position
- Knowledgeable of Excel and other MS Office products;
- Speaking fluent English.

Offer you can expect

- Fast paced working environment;
- Flexible work arrangements;
- Opportunity to learn a lot;
- Friendly team.
- 12 months internship to get good grasp of Industrial processes
